Example: 133,22,5,34.48,33,20,53.2,13.296,0.014,0.532,0.018,NA,NA,0.319,0.013,0.328,0.004,0.649,0.012,18,
ASAS3 magnitude

* Label: Label that shows up on the printed chart next to the star. This is usually the V band value rounded to tenths, with no decimal.

* Required fields are Label, RA, DEC, Source
* Empty fields need to be populated with "NA"
* Comments can run to 1,000 characters
* Any line that begins with a # will be ignored
* Source should be taken from the "Source" table in VSD.
