

LETTER TO THE EDITOR

“Additional Information on Dorrit Hoffleit’s ‘Maria Mitchell Observatory’”

I have a comment on Figure 8 in Dorrit Hoffleit’s “History of the Maria Mitchell Observatory” (Vol. 30, No. 1, p. 83). The caption identifies Mary Jane Taylor as now enjoying a career as a professional astronomer. Melissa McGrath, who is also in the picture, is a professional astronomer as well, and is on the staff of the Space Telescope Science Institute.
